Coefficient of the 2010/11 season
 Pts.=Points; B=Bonus; M=Matches
 *Directly qualified as final tournament host

Qualifying rounds

- All qualifying round matches have been taken into consideration for all seasons.
- Teams eliminated in the qualifying round = results of the qualifying round have been taken into consideration.
- Participating teams in the elite round = results of the qualifying & elite rounds have been taken into consideration
- Seeded teams = results of the elite round have been taken into consideration
- Match points: Victory = 3 points; Draw = 1 point; Defeat = 0 point

Bonus points

- Qualification to elite round (incl. seeded teams) = 3 points
- Qualification to the final round = 3 points
- European Champions = 3 additional bonus points i.e. Sweden (2011/12), France (2012/13); Netherlands (2013/14)
- Runner-up = 2 additional bonus points i.e. Spain (2011/12), England (2012/13; Spain (2013/14)
- Semi-finalists = 1 additional bonus point i.e. Portugal & Denmark (2011/12), Germany & Finland (2012/13); Norway & Republic of Ireland (2013/14)

The coefficient for each season has been calculated by taking the number of points obtained (including bonus points) and dividing it by the number of matches.

The three annual coefficients have then been added together to produce the overall coefficient used for the ranking list.

Associations with the same overall coefficient have been separated according to the following criteria:

- Higher number of matches.
- Higher coefficient from the most recent season, i.e. 2013/14 season.
- Higher coefficient from the next most recent season, i.e. 2012/13 season.
- Higher coefficient from the next most recent season, i.e. 2011/12 season.
- Superior goal difference from the most recent season, i.e. 2013/14 season.
